CHAPTER 4

- **Igneous Rocks**
  - Basalt (extrusive)
  - Granite (intrusive)

- **Sedimentary Rocks**
  - Erosion
    - Weathering
    - Transport
    - Layering of sediments/bedding
    - Compaction
    - Cementation

- **Metamorphic Rocks**
  - Contact Metamorphism (high temperature)
  - Ultra-high Pressure
  - High pressure, low Temperature

- **Rock Cycle**
  - Micas and feldspars $\rightarrow$ clays
  - Iron Minerals $\rightarrow$ rust/oxidization
